WHO WE ARE
Disability Rights California (DRC) defends, advances, and strengthens the rights and opportunities of people with disabilities.

DRC works for a world where all disabled people have power and are treated with dignity and respect. In this world, people with disabilities are supported, valued, included in their communities, afforded the same opportunities as people without disabilities, and make their own decisions.

DRC values all forms of human diversity. We are committed to a culture of belonging where all people are welcome. In order to be effective advocates for all people with disabilities, we must address discrimination in all its forms, including the unique challenges faced by people who experience the intersection of multiple systems of discrimination.
