WHO WE ARE

Disability Rights California (DRC) defends, advances, and strengthens the rights and opportunities of people with disabilities.

DRC works for a world where all disabled people have power and are treated with dignity and respect. In this world, people with disabilities are supported, valued, included in their communities, afforded the same opportunities as people without disabilities, and make their own decisions.

DRC values all forms of human diversity. We are committed to a culture of belonging where all people are welcome. In order to be effective advocates for all people with disabilities, we must address discrimination in all its forms, including the unique

challenges faced by people who experience the intersection of multiple systems of discrimination.

YOUTH PRACTICE GROUP (YPG)

We are a statewide team of passionate attorneys who work collaboratively to enforce and expand the rights of students with disabilities. Our goal is to ensure that students with disabilities receive the benefits and supports guaranteed under federal and state laws. We achieve this objective through various types of lawyering and advocacy strategies that includes individual student representation at due process hearings, systemic litigation, investigations and monitoring of school districts, policy advocacy and community empowerment.

The YPG works collaboratively on lawsuits and advocacy projects on behalf of all youth with disabilities. Much of our current work includes advocating on behalf of students with disabilities facing exclusionary discipline, youth with mental illness, foster youth, undocumented youth, Tribal youth, students of color and underserved communities. We also work to improve access to education supports and services, through our legislative and policy work with coalition partners.

Guided by disability justice principles, we prioritize geographically underserved and economically disadvantaged populations subject to intersectional harm caused by racism and ableism. Our direct services work prioritizes representing underserved youth suffering intersectional harm on account of their race or nationality and disability while our systemic litigation and advocacy docket focuses on challenging the school-to-prison pipeline.
